

LIMITED TIME OFFER

35% discount on Webfleet fleet management for your vans

Sign up and connect your vans to Webfleet and receive a 35% discount on your LINK tariff when choosing our plug and play LINK 245 or fixed installation LINK 640. Essential vehicle tracking and management with additional CAN connectivity option to enhanced vehicle data, taking your fleet's performance to the next level.

BENEFITS

STAY CONNECTED WITH YOUR FLEET AND DRIVERS

- Always know where your vehicles are and where your drivers have been.
- Get started easily with the plug and play LINK 245 into the vehicle's OBD-II port or opt for a fixed installation with the LINK 640.
- Take advantage of stronger data coverage with support for LTE-M and GPRS technology.

REDUCE YOUR COSTS

- Reduce running costs by monitoring fuel level and consumption and encouraging fuel-efficient driving¹.
- Minimise vehicle downtime with instant vehicle malfunction alerts and automatic maintenance notifications.
- Improve your fleet performance using precise and up-to-date vehicle data.

WORK WITH YOUR DRIVERS TO MAKE THEM MORE ACCOUNTABLE AND EFFICIENT

- Improve your drivers' performance and safety with driving style insights.

CONTROL YOUR FLEET AND BUSINESS

- Get notified when a vehicle is used without your permission.
- Manage your tax responsibilities more easily using automatic logbook.
- Identify areas where improvements can be made using comprehensive reports.

FEATURES

TRACK & TRACE

View the driving times, mileage and locations of your fleet in real time or over a chosen time period.

DRIVING BEHAVIOUR¹

OptiDrive 360 provides driving style insights on up to eight performance indicators.

ALERTS AND CRASH DETECTION

Receive a notification whenever a vehicle enters or leaves a previously designated area, or when an accident is detected.

FEATURES

FLEET PERFORMANCE REPORT

Get 24/7 access to comprehensive vehicle and driver insights such as trip and fuel consumption/level reports.

MAINTENANCE AND FUEL LEVEL CONTROL^{2,3}

Monitor fuel consumption in real-time and be notified about the health of your fleet with instant vehicle diagnostic (MIL and DTC notifications). Automatic reminders will let you know when vehicles need to be serviced.

ELECTRIC VEHICLE SUPPORT⁴

Get real-time battery levels, driving ranges, charging status and remaining charging times. Insightful reports in Webfleet on charging and energy consumption let you stay on top of your electric fleet's performance.

Power/CAN connector

TERMS & CONDITIONS

1. This promotion is valid in UKI only.
2. This promotion is valid as of 01 June 2022 up until 30 September 2022, included.
3. The offer is valid for new Webfleet customers with contracts signed, approved, and uploaded while the promotion is still valid.
4. The offer is not available to existing Webfleet customers. At least a full year needs to pass after the contract termination for existing customers to then be considered a "new Webfleet customer" and qualify for this offer.
5. For every order (rental or purchase) including a LINK 245/640 device with a LINK tariff for an eligible fleet of ≥ 10 LCVs, a 35% discount will be applied to the tariff for at least the duration of the minimum contract term as defined in Webfleet contract for new Webfleet customers.
6. The minimum duration of the Webfleet contract to qualify for this offer is 24 months.
7. This offer is valid for LCV fleets of at least 10 units within the same Webfleet contract for LINK 245 and / or LINK 640 devices, rented or purchased, with a LINK tariff.
8. This promotion cannot be used in conjunction with any other discounts, special pricing, or promotions. For those cases, standard approval process applies.
9. We reserve the right to change the terms and conditions for the "35% OFF LINK TARIFF" promotion or stop this promotion at any time.

v1.2 - LCV 35% offer - August 2022
